Dear Friends,

Amongst the Activities of the Foundation, preparation for PLASTINDIA 2015 Exhibition & Conference is the most dominant one and Mr. J. R. Shah, NEC Chairman is apprising you all with the complete details so far in the separate page dedicated for that purpose. The National Advisory Board has been formed under the Chairmanship of Mr. Mahendra N. Patel for giving the broad guidelines for this Exhibition PLASTINDIA 2015. I am happy to convey that the overall preparations are well apace and the Teams are working with great enthusiasm to contribute their best to ensure that the Exhibition stands out as Mega event as never before fulfilling the expectations of our various EXHIBITORS & Enterprising Business Visitors.

Full advantage to promote the Exhibition was taken during CHINAPLAS 2014 at Shanghai. PLASTINDIA Team comprised of all Office Bearers of the Foundation, Chairman NAB, NEC, Publicity Committee, Advisor and Marketing Manager. While DCPC Secretary, Mr. Indrajit Pal made presentation on the "Investment Opportunities in India", I could make a presentation on what wonderful opportunities are awaiting the Plastics Business Entrepreneurs in PLASTINDIA 2015 just to be grabbed. We had a fruitful Networking Dinner attended by our prospective Exhibitors and overseas associates viz. Messe Dusseldorf, M/s. Adsale and M/s. Pilatus. On the whole, it was a very satisfying promotional experience.

I took the opportunity to address the AFPI Members at the 15th Term at Bali, Indonesia on the 22nd May. I made a Power Point Presentation on the Plastic Industry Status in India and also screened the PI 2015 Promotional film to the discerning audience.

On invitation of GSPMA, I attended their Seminar at Ahmedabad on April 12. I had the opportunity to address the Press, on the positive aspects of PLASTICS. The Press had also carried the message well in their reports.

Mr. J. R. Shah and Myself were Special Invitees in the Vinyl INDIA-2014 Conference held at Grand Hyatt Hotel at Mumbai on 8th & 9th May 2014.

Some of the PLASTINDIA FOUNDATION COMMITTEES have remained dormant during the recent past and I thought of reviving them. The charge of the Education Committee has been taken by Dr. Prakash Trivedi.

Likewise I have also requested Mr. Ashok Goel, Chairman of the Empowerment Committee to use all his powers to give the needed thrust to push further the work of

our prestigious Plastindia University project.

Dr. Y. B. Vasudeo as Chairman of Plasticulture Committee and Mr. Atul Kanuga as Chairman of Environment Committee are trying to reinforce fresh Energy into these Committees.

With overwhelming response of our valued Exhibitors the space-booking phase is almost reaching the brim, and with all Committees and Sub-committees putting in their best efforts. I would like to end this message on a positive note that Bright Days are ahead !!

Thanking you

Warmest regards
Subhash Kadakia
President
Plastindia Foundation

From the Vice President's Desk

Rajeev Chitalia

Friends,

The export scenario for 2013-2014 seems quite good with an achievement of about 7.9 billion US Dollars to register a growth of 11.69% over the corresponding period last year. Plastic raw materials/polymers continue to dominate the exports from the plastic sector constituting about 38% of the total exports and registering a growth of 15.48% with exports of about 3 billion US Dollars. The value-added exports registered an export of 4.9 billion US Dollars and a growth of 9.44%. While the scenario is encouraging a lot more needs to be done.

With a new government under the leadership of Mr. Narendra Modi having taken over the reins of our country, we in the industry have a lot of hopes on innovative policies and schemes being conceptualized and implemented. I am sure that the new Government will take firm steps in commencing consultations with all stakeholders towards this end. Policies and schemes for development particularly of industry and exports must make the environment conducive to doing business a very easy affair. This will also attract new and better talent into business so that innovative products and services are introduced into the market. Innovation in Policies and procedures must also tempt manufacturers to eye the huge export potential for plastics which is estimated at well over 500 billion US Dollars.

As days pass by, the Plastindia dates also approach very fast. With the new environment, I am sure that this edition of Plastindia will be a vehicle to tap more opportunities for our sector – be it the domestic market; the export market; access of technology or developing strategic business alliances and collaborations. We in the industry must partner progress particularly for the plastics industry and see how new ideas could be evolved for the overall growth of the industry to contribute to generating employment and adding to the GDP of our country.

With these few lines, I wish you all the very best in your business ambitions and trust we can all partner in the development process so very necessary for our country today.

Dear Plastindians,

This edition of *Plastindia In-House Journal* is a curtain raiser on *Plastindia 2015* to be held from Feb 5 -10, 2015 at Pragati Maidan, New Delhi. We feature details about the ninth edition of India's largest plastics exhibition and the various concurrent events that have always covered the entire gamut of offerings any world class event includes. As in any true world class event, this exhibition also presents several avenues to showcase your presence not just by being an exhibitor, but through various other possibilities.

The next few pages present the entire range of opportunities available to you for advertising your products & sponsoring various events at *Plastindia 2015* Exhibition. As with past 8 editions, these bear rich dividends for all our sponsors and advertisers. We invite all our readers to explore the various sponsorship and advertising opportunities, avail of various schemes, special offers and early-bird discounts in this issue.

Find unlimited opportunities to broaden your competitive advantage by increasing your credibility, image and prestige in sponsoring various events, raise brand awareness and create preference, create positive PR and raise awareness of the company as a whole, provide attractive content for a range of products and services, build brand positioning. Avenues include sponsorship of *Plasticon Awards*, *The Exhibitors Gala Nite*, *Two-Day International Conference*, *the Media and Press lounge*, *Badges*, *Shuttle Buses*, among others.

Explore multiple options for product branding and awareness, opportunities to build trust and establish rapport with customers and prospects. Gain heightened visibility due to positive publicity and increase visibility of the company's products and services by advertising your products and services in *On-Site Advertisements* at Pragati Maidan during exhibition, *the Exhibition Director*, on the *Plastindia Website*, in *CD Directory*, in *Show Dailies*, etc.

We are also pleased to bring you details of the launch functions held at Bangalore, Delhi, Kolkata and Chennai.

Plastindia Exhibition website is live and ready for your use. Please visit www.plastindia.org for more details. Readers who wish to visit the exhibition will be able to do so by way of brand new *Visitor Portal* which will become ready shortly.

All those who wish to increase their company's brand value should participate in sponsorship and advertisement opportunities available during *Plastindia 2015* which is *World's third and India's largest Plastics Exhibition*.

Details of various sponsorship opportunities are outlined in the pages of this brochure. Every Endeavour has been taken to ensure that maximum value and visibility is afforded to our sponsors across all aspects of promotional and media material.

Warm regards

From the **NEC Chairman's Desk**

J R Shah
Chairman – National Executive Council

Dear Readers,

I am pleased to inform you that the activity of promoting PlastIndia 2015 is going at a fast pace. After the First Inaugural launch of PlastIndia 2015 in Mumbai on 29th January 2014, we have so far organized more than 25 promotional programs in India and abroad and created considerable awareness about this Mega Event with the cooperation of NEC Committees and PIF Founder Members. We have practically got full space registration of Domestic Section of PI 2015 Exhibition and our International Partners have also committed to us to sell full space allotted to them. I must state that this success is due to active cooperation from entire Plastics Fraternity.

We are now engaged in preparation and execution of concurrent events i.e.: International Conference, Platicon Awards, Innovative Pavilion, Proplast etc.. and the respective committees are working to make these events a grand success. In addition, we shall be coming up with comprehensive Exhibition Directory and would be creating sites for advertisement and promotion at Pragati Maidan in New Delhi, giving tremendous opportunity for promotion, advertising and branding. For this, we have worked out the detailed program for sponsorship opportunities and branding for our exhibitors and others from plastic industry, both in India and abroad. The details are available in this issue of In-house Journal and also on our web site. I appeal to the Plastics Industry to take the advantage of this opportunity.

Visitor Promotion program for PI 2015, will be finalized in the month of August 2014, and we shall undertake the promotion activity sometime during August-September 2014 both in India and overseas.

Our efforts would be to give the best value to all the stakeholders which include Exhibitors, Conference Delegates, Platicon Awards supporters, domestic and International visitors and all those who are committed and engaged to make PI 2015 a great success.

Dear Friends, I invite you to be a part of PI 2015 and Expand your Horizon.

Thank you.

Best Regards,

J R Shah

Plastindia 2015 Curtain Raiser

India is the world's third largest economy (As per PPP). Her growth is driven by the rising disposable incomes and aspirations of India's 400 million plus middle class, India is growing explosively and has become the most lucrative business destination in the world. The plastics globe is clearly defined. On one hand we have India and other developing economies. These have huge market potential, viable manpower and capability to become global manufacturing bases. On the other we have the developed economies. Their strengths are technology, research, financial muscle and market experience. PLASTINDIA 2015 will bring these two sets together and leverage their diversity to create unparalleled opportunity.

Welcome to PLASTINDIA 2015 - Welcome to Expanding Horizons.

The PLASTINDIA show in 2015 will be more diverse, more business focused and more business friendly than ever before. The various carefully planned International Conference and concurrent events will ensure that no aspect of the industry is left uncovered.

The Biggest Business Opportunity of 2015 Opens its Doors

In its 9th edition, Plastindia 2015 will be the largest one till date and is expected to consolidate its position as one of the largest pure Plastics exhibitions on the global plastics scene. Expected to bring together about 150,000 business visitors and 2000 top class exhibitors from across 40 nations at a showcase extending across 125,000 sq. mts, this will truly be a staggering platform and opportunity for Indian plastics. Not just the main exhibition itself, there will be a stunning bouquet of associated offerings that make Plastindia exhibitions a 'must not miss' affair for global plastics honchos.

To be held at Pragati Maidan, New Delhi, PI 2015, will also host 4th PROPLAST, which shows off the ever enhancing global standard capabilities of India's plastics processing industry and is a magnet for OEMs and retail chains, 9th International Conference on Plastics, 6th Plasticon Awards, Wiintech

Technology Transfer initiative, B2B meets on investment, finance, knowledge, sharing etc.

India is Poised to become the next Global Hub for Plastics

Backed by a huge workforce of economical yet skilled manpower; a high emphasis on quality as well as value for money; and a favourable regulatory environment, India's plastic processing sector is surging.

The industry has surplus processing capability to cater to more business and is constantly upgrading itself on technology and automization front to keep pace with the developed nations.

The intent is simple - to become one of the world's preferred processing hubs over next few years. India is welcoming, ready and waiting.

INDIA - THE KEY DRIVER FOR THE FUTURE

- India's Per capita GDP set to double by 2020
- India's household income to almost triple by 2020
- At present, India's total merchandise trade is US \$ 792 Bn - more than 50% of GDP
- A productive and growing work force of 467 million people; expected to add 100 million more by 2020
- India has a surging, upwardly mobile, middle class of 400 million people; 60% of which is under 35 years of age
- A productive and growing work force of 467 million people; expected to add 100 million more by 2020
- India has a surging, upwardly mobile, middle class of 400 million people; 60% of which is under 35 years of age
- A productive and growing work force of 467 million people; expected to add 100 million more by 2020
- India's plastics processing industry will deploy more than 180,000 machines by 2020 - from the current 110,000 - to cater to booming demands

PROPLAST 2015 - Sourcing Hub for Processed Plastic Products

PROPLAST 2015 is an integral part of PLASTINDIA 2015 to be held at India's premier venue, Pragati Maidan, New Delhi, from 5th February to 10th February 2015. Attracting over 2000 exhibitors and nearly 1,50,000 business visitors from more than 40 countries, PLASTINDIA will be one of the largest plastics exhibitions, spread over 1,25,000 sq. meters and promises to be an exciting and purposeful experience like no other in the industry.

PLASTINDIA 2015 will provide an opportunity for members of the Indian plastics fraternity and their international counterparts, to discuss and display their latest innovations in plastics. It will be a forum where diverse skill sets and industry knowledge are brought together.

PROPLAST: THE FINAL WORD IN PROCESSED PLASTICS

PROPLAST within PLASTINDIA 2015 will have specific areas dedicated to processed plastics products, specially designed and spread over 11,000 sq. meters and these will be fully equipped with help desks, internet kiosks and conference rooms. Thereby, serving as a forum for meetings with processors & distinguished minds associated with the plastics industry, and to carry out business in a comfortable environment.

THE OPPORTUNITY

This 4th edition of the PROPLAST offers a great opportunity for Indian companies to showcase finished plastic goods to the whole world. PROPLAST 2015 will be visited by organisational heads and key decision makers from various industry segments, viz: Automobile Industry, Food Processing Industry, Household Products Manufacturers, Pharmaceuticals & Healthcare Industry, Construction & Infrastructure Industry, IT & Telecommunications Industry, Packaging Industry, Industrial Goods Manufacturers like Crates and Pallets, FMCG Manufacturers, Consumer Appliances Manufacturers, Retail Goods Manufacturers, Travel ware Manufacturers, FRP & GRP Products manufacturers, Agriculture Industry, etc.

THE SCOPE

Products and articles offered are limitless and a brief listing would include:

- Multi-layer Films and Sheets (PE/PVC/PP/Nylon/PET/PTFE/Acrylic/PC etc.)
- BOPP/CPP/PVC/PET Films
- Bottles (PET/PVC) and pouches
- Rigid Cups and Containers
- Thermo-formable components, including microwave-able trays/containers
- Moulded Furniture, crates & pallets

- Kitchen-ware, including insulated containers
- Speciality engineering components for the Automotive, transport, telecommunications and Energy Sectors
- Pipes and Fittings made from HDPE/PVC/PP/FRP/Nylon, storage tanks and sanitary-ware
- Moulded Luggage, Soft Luggage, Bags and Totes
- Toys and kids playground equipment
- Fashion Accessories, including Artificial Jewellery
- Safety wear and rain wear, including Helmets and Gloves
- Vinyl Floor Covering & Linoleums
- PVC Profiles & tubings, Doors and Windows
- Writing Instruments & Mathematical Instruments
- Gifts & Novelties, Wallets & Purses
- Files and Folders, & stationery products
- Laminated and co-extruded Packaging materials for Processed Foods
- Articles of daily use : Toothbrushes, brushes, combs, etc.
- Multi-layer tubes for cosmetics, toothpastes, spectacle frames and lenses
- Caps and Closures, paint pails & carboys
- Woven sacks and Jumbo Bags
- Disposable medical devices, artificial aids & implants and critical-care components and accessories
- Mulching & Greenhouse films and meshes and Fences
- Architectural Panels, roofs, coverings & Light fittings
- Wire and cable Sheaths and associated Fittings
- Speciality materials and components for the Armed forces, eg. Fabrics & Shields

OPTIONS AT PROPLAST

The integration of Global markets and a promising outlook for the world economy offers immense opportunities. The area of processed plastics shows incredible promise for years to come. With world scale plants, superior quality and speciality products, India is well on its way to becoming a sought after source in the plastic processing industry. Over the last decade, the Indian processing industry has moved from simple processing to the manufacturing of speciality and high performance products. Helped by advanced capabilities, Indian processors are constantly developing new products and applications to suit market needs.

PROPLAST offers a multitude of business prospects for professionals to seize and take this industry forward. Indeed it is the right time to plan participation, and access opportunities available via sponsorship of conferences, event dinners/ lunches, special programs, internet kiosks, help desks, etc.

Don't miss the opportunity to reach out to buyers like

PLASTICON AWARDS 2015

PLASTICON AWARDS ARE THE INDUSTRY'S RECOGNITION PLATFORM

- In its 7th edition, the PLASTICON awards are quite simply 'THE' award that the Plastics industry considers as true recognition among their peers.
- A platform that showcases true excellence in an industry that continues to grow at a pace well in excess of International norms
- Credibility that is inherently in built by virtue of being held during PIF 2015, among the world's largest trade shows for the Plastics and Allied Industries
- Awards will be distributed across 25 categories that encompass the gamut of almost all aspects of a vast industry
- Decided by a pre-eminent jury panel comprising doyens of the industry

We are partnering with leading Television Networks as our Media Partners to profile the event. A powerful marketing campaign is planned in the lead up to The PLASTICON 2015 Awards in the following forms: Frequent and regular email and online communication; interviews in the press; ad releases in print and on TV. The event will be extensively covered in print, television and online media.

Sponsorship Opportunities at PLASTICON 2015

Presenting Sponsorship – 1 Spot

- o Offers the opportunity to be synonymous with the event and affords the sponsor a genuine leadership platform
- o Extensive media exposure and co-branding across all promotional avenues
- o Sponsor's logo included in the event logo unit under the legend "SPONSOR presents PLASTICON 2015"
- o Unique innovations in media offered to presenting sponsors including On air quotes and one-on-one interviews with partner TV network
- o The presenting sponsor's logo would be included along with the event logo unit under the legend – "SPONSOR Presents PLASTICON 2015".
- o AV presentation about organization at the start and during breaks at the awards function.
- o The opportunity to present the "Lifetime Achievement Award" at the event
- o Multiple on air mentions by the compere as part of the show flow during the event
- o An exhibit area at the special sponsors pavilion at the exhibition
- o Table Space Branding at the event venue
- o 10 Premier passes would be given to the sponsors for further distribution at their discretion.
- o Partner logos would be printed on the reverse of event passes
- o Live links to sponsor website on the event micro site
- o Post-event mailer to be sent to all attendees on behalf of sponsors by event managers. Mailer and its contents to be provided by sponsors

Co-sponsor – 2 slots

- o Co-sponsorship rights to the event. The location of co-sponsors logos would be alternated periodically to ensure equivalent mileage for both cosponsors.
- o Complete co-branding for the event across all avenues of media promotion including TV spots, advertisements in the leading local dailies, Outdoor and Internet Media
- o FCT will be made available to the Co-sponsors in line with their investment to be utilized during the build up to the episode telecasts on our partner network.
- o Co-sponsor's logo located below the Event logo on the backdrop of the event
- o Multiple on air mentions, courtesy calls by the compere during the episode telecasts
- o Brief AV presentation from the sponsor to be aired at start of event
- o Inclusion of sponsor's own promotional material in the delegate bag
- o Table Space Branding at the event venue
- o Partner logos would be printed on the reverse of event passes
- o Live links of the sponsor website on our event micro site
- o Post-event mailer to be sent to all attendees on behalf of sponsors by event managers. Mailer and its contents to be provided by sponsors
- o 5 Premium passes per sponsor to be distributed at the sponsor's discretion.

THE STAGE IS SET
FOR THOSE WHO HAVE STRIVED FOR
INNOVATION AND EXCELLENCE

AND ACHIEVED IT

**Announcing the Call for Entries for the 7th edition of Platicon Awards

- o Sponsor Logo in all communications - acknowledgement as Associate sponsor.
- o Company logo on micro site created for the Conference
- o Presence on all promotion material related to the event
- o Display of your company logo on the Stage side panels and registration counter.
- o Inclusion of sponsor's own promotional material in the delegate bag
- o Table Space Branding at the event venue
- o Company logo on all promotional material and reverse of event passes
- o Reserved seating for 3 Representatives at Sponsors' Block

Gala Dinner Sponsorship (Exclusive) -

An exclusive post event, Networking opportunity which will be attended by over 600 invitees including members of the Plastics Industry, Government and awardees

- o Sponsor Logo in all communications - acknowledgement as Associate sponsor.
- o Company logo on micro site created for the Conference
- o Presence on all promotion material related to the event
- o Exclusive branding would be done for your company at the Dinner venue. Adequate arrangements will be made to provide your organization prominence on:
- o Exclusive branding at the F&B area for the sponsor
- o Prominent visibility on a special panel set up at the entrance thanking all sponsors
- o Branding on all Dinner Standees.
- o Customized Dinner Passes with Plasticon and Sponsor branding welcoming guests
- o Company logo on all promotional material and reverse of event passes
- o Screening of Commercials during the dinner.
- o Company Literature / Leaflet / Brochure will be inserted in the delegate kit
- o Reserved seating for 3 Representatives at Sponsors' Block

Official Partnerships (Multiple Slots) -

The event offers an excellent opportunity for brands that can enhance the program through their products and services. Customized opportunities would be offered to brands that would consider aligning themselves with the awards in an exclusive manner

- o Sponsor Logo in all communications - acknowledgement as Official Partner for the Service provided.
- o Company logo on micro site created for the Conference
- o Presence on all promotion material related to the event
- o Branding opportunities at the event venue for your company's products and services.
- o Prominent visibility on a special panel set up at the entrance thanking all sponsors
- o Branding on all Dinner Standees.
- o Company logo on all promotional material and reverse of event passes
- o A special mailing exercise to the exhibitor and invitee list will be undertaken by Plastindia on your behalf. The content and mailing collateral to be provided by the official partner
- o Corporate Brochure: Company Literature / Leaflet / Brochure will be inserted in the delegate kit to be distributed to all delegates attending the summit.
- o Reserved seating for 3 Representatives at Sponsors' Block

Category Partners (Multiple Slots)

We sincerely solicit donor partners from within the Plastics industry to champion the cause of the Plasticon Awards by taking up category based partnerships. Partner companies would be encouraged to support awards that resonate most with their organization and beliefs.

- o Sponsor Logo in all communications - acknowledgement as Associate sponsor.
- o Company logo on micro site created for the Conference
- o Presence on all promotion material related to the event
- o Display of your company logo on the Stage side panels and registration counter.
- o Inclusion of sponsor's own promotional material in the delegate bag
- o Courtesy mentions and recognition in-venue by the MC during the relevant segment for all partners
- o Company logo on all promotional material and reverse of event passes
- o Reserved seating for 3 Representatives at Sponsors' Block

DETAILS FOR ALL SPONSORSHIP OPPORTUNITIES ARE AVAILABLE ON REQUEST

International Conference – Plastindia 2015 - Gateway to Innovation

As a concurrent event to PLASTINDIA 2015, the Conference Committee is pleased to announce the 9th International Conference in New Delhi on 6th and 7th of February 2015.

The theme for the Conference is "Gateway to Innovation". This is particularly relevant in current context as Indian plastics industry is driving towards speciality products and positioning plastics in innovative applications. While the presentations and business sessions would revolve around this theme, this Conference will be an ideal platform to explore the ideas, uncover the solutions and develop the opportunities thus making it the largest and most highly respected event of the industry.

This International Conference is a great place to meet technical experts from the industry. This also provide a unique opportunity for an excellent net-working forum and a platform for technological knowledge exchange among industry professionals. So, do not miss this opportunity and mark your calendar to attend 9th International Exposition and Conference in Feb, 2015 at the historic city of Delhi.

TO SPEAK

If you are a Corporate/Technologist/Consultant/Academician/ and wish to speak at our 2015 International Conference on Business Opportunities/Business scenario/Advances in Processing Machinery/ Product & Application Innovations/Processing Technologies/High performance additives & master batches and on the subject of sustainable developments, please e-mail your request with synopsis to : conference@plastindia.org

The conference will be a two day programme

DAY - 1: BUSINESS SESSION - 6th Feb 2015

With enormous scope for business expansion, machinery modernizations and technology partnerships, India is the nation where the future of plastics industry belongs. In this Business session, Global leaders, Petrochemical Advisers, Economists and Management Consultants will share their vision and views on raw material availability, Market trends & shifts, and trade patterns. Stalwarts from Indian and Global industries are expected to gather and listen at this Business interactive session. The three sessions planned under this business session are:

- **International & Domestic Business Overview:** Global Economic Review, Polymer Industry Overview, Feedstock & Market, Market growth and Challenges, Polymer Demand & Future projections are the key topics under this session
- **New Business Opportunities:** Materials Presentations are invited on new Raw Materials, Advanced materials for Engineering and high temperature applications. Emerging Materials like Bio polymers and degradable polymers
- **New Business Opportunities:** Product & Applications: Technology innovations and emerging new opportunities in

the field of packaging, Health care, Automotive, Agriculture, Life style products, infrastructure, etc., will be the topics of discussion in this session

DAY - 2 TECHNOLOGY SESSION 7th Feb 2015

As the thriving competition in today's business demands technological up-gradation in every sector of plastic industry, focus will be on the overview of emerging trends and latest innovations in the polymer industry. This session will be dedicated to technological developments in conversion technologies, processing machinery, performance chemicals, master batches and compounds. Trends in recycling technologies and sustainable developments and environmental needs are also addressed in this session. Technology Session has three sessions designed as:

- **Machinery & Conversion Technology:** Latest Trends in Processing machines and Advances in conversion Technology, Energy efficiency, Profitability correlation to technology developments are the focus of this session.
- **Additives & Compounding:** Leading Additive and Compound suppliers to the polymer industry use this platform to share the most innovative products that they have launched.
- **Recycling & Sustainability:** Focused on Environment, this session is dedicated to Current trends in plastic waste recycling and recovery. Topics like Designing needs for Sustainable Bio Plastics, Developments and delivery of sustainable products, Waste Management strategies, will be deliberated and debated by global leaders

More details at www.plastindia.org

To PRESENT A POSTER

- Designed to encourage the budding plastic technologists, this session invites poster displays by researchers from Academic Institutions, R&D Organizations and Industry working in different areas of polymer science & technology. With a theme "Gateway to Innovations" entries are requested to use this as a platform to display novel creativity:-

(The details of the format for the poster session will appear in the conference website shortly)

- Please mail your queries to:
Conference@plastindia.org

To SPONSOR

This international conference will be attended by over 500 delegates across the globe. In this two day conference, Global polymer manufacturers, Machinery suppliers, Leading compounders, Additive suppliers, Technology licensors use this platform to share their technology innovations and capabilities. To participate and sponsor at our 2015 International Conference, kindly e-mail your request to: **conference@plastindia.org**

Sponsorship Fee

Platinum Sponsor	: ₹ 7.5 Lakhs
Gold Sponsor	: ₹ 5.0 Lakhs
Silver Sponsor	: ₹ 3.0 Lakhs
Lunch Sponsor	: ₹ 2.5 Lakhs
Tea Sponsor	: ₹ 1.5 Lakhs

In Proceedings:

- One page Colour Advertisement
- One page Company Profile

Offers:

- Free Delegates (10 for Platinum, 8 for Gold, 5 for Silver, 4 for Lunch, and 2 for Tea)
- Display Panels / Screen at Conference Site
- Display at Conference Website

GLIMPSE OF 8TH INTERNATIONAL CONFERENCE 2012

Conference Speaker: Business Session

Mr. John R. Verity
Vice President, Global Polyolefin Business Unit
ExxonMobil Chemical

Conference Speaker: Technology Session

Prof. Ramani Narayan
Michigan State University

Conference Speaker: Business Session

Mr. Mark Eramos
VP, IHS Chemical

Conference Speaker: Technology Session

Mr. Philippe Schlaepfer
EX. VP- Corporate Developments
Songwon industrial company ltd

This international conference will be attended by over 500 delegates from across the globe. In this two day conference, Global polymer manufacturers, Machinery suppliers, Leading compounders, Additive suppliers, Technology licensors use this platform to share their technology innovations and capabilities.

To ATTEND

Don't miss this opportunity to learn from the leading experts in the field of business strategies and technological marvels. To attend the 9th International Conference, visit our website and register at: www.plastindia.org/www.plastindiafoundation.org (registration site will open by Sep 2014)

Attendee Fee Schedule * #

Regular	: ₹ 8,000
Early Bird (Valid Till 31st Dec 2014)	: ₹ 6000
Full time student	: ₹ 2000

Inclusive of Service Tax

THE VENUE

6th and 7th February 2015 at

Eros Hotel, Nehru Place New Delhi, 110019, India
Tel: 91-11-41223344 | FAX: 91-11-26224288

* Fees entitles your entry to the Inaugural Session, Two day Conference Sessions, Copy of Conference Proceedings, Conference Kit and Lunch & Refreshments on both the days.

Advertisement Opportunities in Plastindia 2015 - Exhibition Directory

PREMIUM POSITION ON BID

Plastindia Foundation has bidding for Premium Positions and open to exhibitors only. It will commence on August 1, 2014 at 11.00 am and end on August 31, 2014 at 5.00 pm(IST). Each advertiser will have to bid it ONLINE at www.plastindia.org and click on "For Advertisers". Each advertiser can bid until the last date. On the final day the highest bidder will receive an email on receipt of which he has to confirm the position and the bid.

1. REGULAR POSITIONS

4 Color Pages only

Ordinary Full Page	For Exhibitors	For Non-Exhibitors
For Indian (₹)	35,000	50,000

Influencing Trade Partnerships between India and the world

**Would you like to get into a joint Venture
or are you seeking
Technology Transfer from the world's best?**

**PLASTWIN program aims to provide one roof solution
to small and medium companies in India**

- Plastic Processing (All Process)
- Mould Making
- Auxiliary Equipment or Processing
- Compounding and Masterbatches
- Machinery, Waste Recycling & Processing and Various other areas of business.

To know more contact us:

PLASTINDIA FOUNDATION

Plastwin - Influencing Trade Partnerships between India and the world

What is PLASTWIN?

PLASTWIN is a program which will bring together various companies of India and other leading companies across Europe / world under one roof, facilitate dialogue and create opportunities for understanding each other's strengths, offerings and needs which would then result in potential business tie-up leading to mutual growth of both the companies. Under this program various seminars, networking meets, etc. will be held over a period of time across multiple cities. The basic objective of PLASTWIN is to help facilitate international linkages, partnerships and trade opportunities for the Indian companies and vice versa - ultimately leading to growth.

What will PLASTWIN offer and facilitate?

PLASTWIN will help source introduce potential partners from across the world depending on the need of the Indian companies which could be in the following areas:

- Need for the Technology exchange / transfer or source expertise
- Need for R & D expertise and knowledge bank to be able to develop process, products, service manufacturing to match the international standards
- Manufacturing partner that would help increase the production capabilities and capacities in India
- Marketing partner who would source global business and get manufacturing / processing done from India
- Financial investor who would bring in stability and funds for expansion

- Opportunity for an Indian company to buy over stake in the foreign company
- JV and partnership opportunities with international companies

Who can benefit from PLASTWIN program?

Small and mid-sized companies who are into:

- Plastic Processing (All processes) Machinery
- Mould Making Waste recycling and processing
- Auxiliary Equipment or processing Various other areas of business
- Compounding and master batches

What is Wiintech?

Wiintech represents more than 2500 companies and research centres in the chemicals and materials sector

- These companies are unified under 8 different clusters / associations from across 8 European countries
- These 8 clusters / associations are supported by high level government ministries and economic bodies to aid in international business co-operation
- The main objective of Wiintech is to initiate opportunities for business development between European countries and other cluster partners in overseas countries like for example Plastindia Foundation in India- who will again play a similar role within India

OUR PARTNERS

STUDENT'S CORNER

Student's Participation in Plastindia 2015 – 9th International Plastics Exhibition

We are pleased to inform you that PLASTINDIA 2015 Exhibition has been successfully launched. Plastindia 2015 has been receiving unprecedented responses from the Indian Plastics Industry and also from all parts of the World. We expect around 3000 Students & Faculties from Plastics and Polymer Institutes.

Benefits of Student Participations :

The event will embrace a significant change in the student's & Faculty's perception by creating awareness in terms of global education scenario. The students and faculties would be immensely benefited by the endless advantages:

- A rare opportunity to meet the finest Indian & Global Corporate, Plastics Machine Manufacturers, Raw Material Manufacturers etc., all under one roof.
- Seek International and Technical Guidance, Queries, Practical Knowledge and counseling.
- Collect Corporate brochures, Technical data & other production Related Papers
- Exhibitions are open to a large and sometimes diverse range of audiences (usually the Students Faculties and General public). This provides you with a perfect platform to guide your Career to a broader and higher education benefits.
- Nowadays, global networking can lead to success in the international market. This is a unique opportunity to learn everything about Plastics and Polymers.
- You will be pleased to note that Plastindia Foundation, as in the past, will be encouraging students of Polymer/Plastics educational institutions to visit the above exhibition by offering a travel subsidy that will be beneficial to them, as per the PIF / IPI Guidelines.

Contact us:

Prof. M. A. Shenoy

Chairman, Student Participation Committee, Plastindia Foundation

INNOVATION PAVILION:

Innovation Pavilion is a first time theme to be used for Plastindia Fairs and is going to be an exciting place to visit for all interested in modern development using plastics. We want this to be of utmost importance to all those interested in Research & Development, Science, Inventions and Innovations and specially to Scientist, Technologists and Engineers and Faculty members & Students. We plan also to make it as interactive as possible and entertaining beside being educational to even lay public visiting Plastindia 15.

Though the full scope for this Innovation pavilion is being worked out, broadly it will consist of three sections:

A] Industry/Institution Section: The biggest section of this Innovation Pavilion will consist of presentation of Innovations as practised by Plastics Industries and Academic Institutions. Industries will have possibility of showcasing their novel ideas in terms of products, processes, designs and so forth. They will thereby not only get to exhibit their ideas but by getting responses from visitors, they will also be able to carry out a market survey of these innovations.

The Institutions will have a major scope to present their various developmental ideas and thereby they will get earlier unheralded exposure to their development and will have feasibilities of turning their inventions into innovations with the help of visiting industries.

B] Graduate Students Posters: An important section of this pavilion is where graduate students research work will be presented as posters. The posters can be on Materials, Processing, Applications and Sustainabilities as they relate to plastics and polymers. As we plan to have only graduate and post-graduate level R&D presentations, it is anticipated that visitors from other institutes as well as industries will find not only the ideas generated by this young force useful but they will also have possibilities of conducting some impromptu interviews to select the future leaders of R&D.

C] Plastics Awards: A pride of place will be given to Plastics Awardees in this pavilion, a fitting place for all those who have won the much sought after Plastics Awards in as many as twenty five categories. Of course, a separate function will be held for giving away these awards, but it is in this pavilion that visitors will have a more leisurely look at their award winning work and may get to even interact with winners.

Innovation Pavilion is already getting some interest related inquiries for sponsorships and participations. The committee consist of Dr. Prakash Trivedi, Mr. Jayesh Rambhia, Prof. Anup Ghosh, Prof. Mohan Shenoy and others ready to join.

For more information, pl contact Dr. Prakash Trivedi at :
prakash@pacepolymer.com
or at Plastindia: necassistant@plastindia.org.

Branding Opportunities at Pragati Maidan

In the modern global business world advertising and creating brand image is a powerful asset towards success. Opportunity is knocking at your door in Plastindia 2015, 9th International Plastics Exhibition and Conference, to be held from February 5-10, 2015 at Pragati Maidan, New Delhi.

The Six-day mega event will offer an ideal meeting place for buyers and sellers to enhance business prospects, strategic alliances, technology transfer etc. It will also provide an opportunity for the national and international plastics fraternity from across the globe. This will contribute to increasing your business and ensure a global footprint.

Here is an offer to access enormous advertisement opportunities at prominent spot and sites at the venue. Advertisement posted at various appropriate locations at Pragati Maidan will enhance your visibility, value and perception to build a good brand image. It will create high impact to the domestic and international audiences.

Come, be a part of the 3rd Largest Plastics Exhibition in the world and accelerate your growth by grabbing an opportunity to advertise in the Plastindia 2015 !!!

ORGANISATION OF PLASTICS PROCESSORS OF INDIA

VISIT OF OPPI DELEGATION TO ISRAEL – 9th – 14th MARCH 2014

OPPI delegation visited Israel from 9th to 14th March 2014 with the following key objectives:-

- Technical collaboration in the field of Micro-Irrigation.
- Focus on innovation and identification of new plastic products.
- Seeking new technologies from Israel
- Joint Ventures
- Invest in Israel
- Export of products
- Import of products and services
- Establishing trade contacts
- Seek distributors / Sales Agencies
- Evaluate market potential in Israel
- Identify new products and technologies in Plasticulture
- Identify technologies for biodegradable products
- Technologies in Plastic Waste Management

The members of the delegation were:-

- Mr. C. Bhaskar, Managing Director & CEO, Xpro India Ltd.
- Mr. Achal Thakkar, Managing Director, Tipco Industries Ltd.
- Mr. Subhash K. Kadakia, President, Plastindia Foundation

- Mr. Lalit Kumar Singh, Chairman, International Relations Committee, Plastindia Foundation
- Mr. Jigish Doshi, International Promotion Committee, Plastindia Foundation
- Mr. Tushar S. Pansare, Technical Advisor, Prince Pipes & Fittings Pvt. Ltd.
- Mr. Hemant Kumar, Head Marketing, Prince Pipes & Fittings Pvt. Ltd.
- Mr. Deepak Lawale, Secretary General, Organization of Plastics Processors of India

The Delegation reached Tel Aviv in the early hours of 9th March 2014.

Dinner hosted by Ms. Vani Rao, Deputy Chief of Mission and Head of Commercial Wing, Embassy of India in Israel

Ms. Vani Rao hosted a Dinner for the OPPI delegates at her residence on 9th March 2014. Mr. Eyal Dekel, Secretary General of the Society of Israel Plastics & Rubber Industry, Manufacturers Association of Israel and others were also present for the Dinner.

Meetings with Ambassador H.E. Mr. Jaideep Sarkar

M/s C. Bhaskar, Achal Thakkar, Subhash Kadakia, Lalit Kumar Singh and Deepak Lawale called on H.E. Mr. J. Sarkar, Indian Ambassador in Israel. Mrs. Vani Rao, Deputy Chief of the Mission and Head-Commercial was also present.

Ms. Vani Rao, deputy chief of Mission with delegates at Seminar held on March 10, 2014

H. E. Mr. Jaideep Sarkar, Ambassador of India to Israel (Second from left) and Ms. Vani Rao, Deputy chief of Mission, Embassy of India met the delegates on 10th March, 2014

Tuesday March 11, 2014 - R&D center, Shenkar College of Design and Engineering

On March 11, 2014 the OPPI Delegates visited Shenkar College of Design and Engineering, which was founded in 1970, to serve Israeli industry in all that relates to academic qualifications and R&D services for modern industries. There are close ties between the two faculties: the Faculty of Engineering and the Faculty of Design, which maintain their own special character, and operate joint projects.

Dr. Samuel Kenig, Dean of Engineering, Shenkar College of Design and Engineering made a detailed Powerpoint Presentation on this occasion. The delegates were also given a detailed round of Shenkar College of Design and Engineering by Prof. Samuel Kenig.

FACTS ABOUT ISRAEL

1. Jerusalem with Population of 815,305 is the biggest city of Israel.
2. 60% of Israel is desert. Water bodies cover only 2.1% of Israel.
3. In the Desert Area the Annual Rainfall is only 93 mm. In Eilat annual rainfall is 22 mm and in the Dead Sea Area it is nil.
4. Kibbutz Naan is the first Kibbutz to be built by teenagers in 1926.
5. Netafim means "To Drip"
6. Israel is 700 kms long. Total Area of Israel is 22072 sq. kms.
7. Muslims in Israel accounts for 17%
8. "Neshser" is the name of the first fighter jet made in Israel.
9. 12 Israelis have won Nobel Prize.
10. Israel produced a car "Susita" from 1970 to 1975. It had a fiber glass roof, which the camels would eat.
11. Cancer strokes and cardiac arrest are the main causes for car accidents in Israel.

Seminar on – "Plastic Applications in the Food Industry" – 20th – 21st February 2014 – Lalit Ashok Bangalore

The 6th Edition of the Indo German International Seminar was held on 20th – 21st February 2014 at the Lalit Ashok, Bangalore. The subject of the seminar was – "Plastic Applications in the Food Industry".

The inauguration ceremony was held in the morning of 20th February 2014 at the Grand Ballroom, Lalit Ashok Bangalore. The Chief Guest was Mr. Jörn Rohde, Consul General for Germany in Bengaluru.

While introducing the Chief Guest, Mr. C. Bhaskar in his Welcome Address said – "H.E. Mr. Jörn Rohde is 55 years young Consul General for Germany in Bangalore. He has degrees in Economics, Politics, Modern History, Advance European Studies from the most famous Universities in Germany, Canada and Belgium."

Mr. Bhaskar further said – "Our Chief Guest for this morning was posted in Jakarta, Brussels, Osaka, Ottawa. He has been posted as Consul General for Germany in Bangalore since 2013. As you

are aware Mr. Walter Stechel, then German Consul General in Mumbai inaugurated the Indo German Seminars thrice – 2006, 2008 & 2010. Mr. Philip Petit, Counsellor (Economic & Commercial), Embassy of the Federal Republic of Germany, New Delhi was the Guest of honour at the Inauguration of the Seminar held at the Lalit, New Delhi on 5th October 2011."

Mr. Deepak Lawale while proposing Vote of Thanks said – "Organization of Plastics Processors of India thanks Reliance Industries, PlastIndia Foundation, Wittmann Battenfeld, and SCJ Plastics for sponsoring this event. We are also thankful to our Association Partners-Indian Plastics Institute (IPI), Karnataka State Plastic Association, Indian Plastics Federation (IPF), and Andhra Pradesh Plastics Manufacturers Association (APPMA)."

In the Seminar there were 14 presentations spread over 20th & 21st February 2014.

The participants in rapt attention.

INDIAN PLASTICS INSTITUTE

MUMBAI CHAPTER

The Mumbai Chapter organized a Half Day Seminar on "Advances in Plastics Injection Moulding, Auxiliary and Joining Technologies" & Jayvee Organics Endowment Lecture on 26th February 2014 at 3-Star Hotel VITS, Andheri (E), Mumbai.

Welcome Address and brief activities of IPI Mumbai Chapter delivered by Mr. Pankaj Shah, Chairman IPI Mumbai Chapter.

Mr. Chetan Shah, Director of Jayvee Organics and Polymers Pvt. Ltd. addressed the audience and briefed about Jayvee Organics Endowment Lecture.

Mr. Francis Pinto, Past Chairman, Governing Council was the Chief Guest of the Function. He spoke about IPI, its Activities and its future programmes.

Mr. Nikunj Patel, Ferromatik Milacron India Pvt. Ltd., made an impressive presentation on the topic "Advancement in Injection Moulding – Modern Trends". His Lecture was well received and appreciated by all the participants.

Mr. Jayesh Mehta, Prasad Group of Companies gave a very interesting technical presentation on "Advances in Auxiliary Equipments".

Mr. Lokesh Upadhye, Branson Ultrasonics, presented technical presentation on "Advanced Plastics Joining Technologies". His Lecture was well received and appreciated by all the participants.

This was followed by a lively Q and A Session. There were over 150 delegates with participation from companies like SABIC, Larsen & Toubro, Branson, Pidilite Industries, Bry-Air, CHEP India, Godrej, Jyoti Plastics, Solution 4U etc. besides IPI members from Mumbai and other invitees. It has reached this milestone with the support,

co-operation, guidance and valuable contribution received from all our IPI members and our valuable Sponsors as well.

Finally, Mr. Umang Shah, Vice Chairman, Mumbai Chapter proposed vote of Thanks. In his brief speech, he expressed gratitude to all Members of the President's Board Members Dr. Y. B. Vasudeo, Mr. Atul Kanuga and Governing Council Members Chairman Mr. N. K. Balgi, Imm. Past Chairman Dr. Prakash Trivedi, Mr. S. K. Kadakia and Chairman of various Committees, Past Presidents and Past Chairmen for their help, guidance and cooperation.

Ms. Kavita Shah, Director, Smartech Global Solutions Ltd., was the Master of Ceremony of the Seminar.

IPI Mumbai Chapter Chairman and Committee Members express our grateful thanks to the sponsors Plastindia Foundation, Branson Ultrasonics and Jayvee Organics & Polymers Pvt. Ltd. for sponsoring this event.

Around -130- members representing all avenues of Plastics Industry and Academia joined the Networking session. A very fruitful fellowship with cocktail was followed by excellent dinner.

PUNE CHAPTER

IPI Pune Chapter organized the Windsor Endowment Lecture at Hotel Orbett Apte Road Pune on Wednesday 12 March 2014.

The lecture was delivered by Mr. Vinay Bansod DGM Design and Development Injection Moulding Machines Division at Windsor Machines Ltd.

In the beginning Dr. S Radhakrishnan welcomed the guests and gave a brief note of IPI Pune Chapter activities.

On this occasion Mr. AS Athalye senior Plastic Technologist and IPI member and Past President was felicitated by Dr. Radhakrishnan. Mr. Athalye had donated 80 books on Plastics to IPI Pune Chapter.

This was followed by the Lecture by Mr. Vinod Bansod who gave a deep insight on the various machines and latest technologies offered by Windor machines for the benefit of the moulders. At the end there was a question answer session followed by vote of

thanks by Dr. Milind Mhalgi Vice Chairman IPI Pune Chapter. Mr. Sameer Joshi compered the program while Mr. Sunil Kokhrale Hon. Treasurer Pune IPI and Mr. Ranjjit Jadhav Hon. Secretary worked for the success of the program. More than 50 participants from the Plastic Industry of Pune IPI members participated in the program. The evening ended with dinner.

Report on Kadakia Plastics Endowment Lecture held on 21-2-2014

We are pleased to confirm that Kadakia Plastics Endowment Lecture held on 21-2-2014 at Hotel Savera, Chennai.

Shri Vishal Kadakia delivered the Endowment Technical Lecture which was well received by a strong 70+ members and invitees. The highly useful content of the lecture was well acknowledged by the members who all praised Shri. Vishal Kadakia for his lecture and several members participated in the interactive session is a testimony for the rich content of the Lecture.

Shri. V. Sekar, our Chairman welcomed the gathering. Shri. V. Hari Narayanan, our Vice Chairman introduced the Speaker to the delegates at length. Our Secretary Shri. T.C.N. Sairam who was instrumental in fixing the Endowment lecture by interacting with Shri. Vishal Kadakia could not be present due to a pressing official engagement. Shri. S.G.Mahadevan our Treasurer oversaw the entire activities for the successful conduct of the endowment Lecture.

Shri. G. K. Srinivasan, Our IPI Past President presided over the Endowment Lecture.

Shri. Chandrasekar Ramesh, Senior IPI member gave the Memento to Shri. Vishal Kadakia amidst large applause from the delegates.

Shri. R. Suresh, Managing Committee Member handed over the Memento to Shri. Hemant N. Gopal, Yuken India Ltd who had given an excellent technical presentation. Shri. Suresh was instrumental in arranging the Technical Presentation by Yuken India Ltd.

Shri. N.K. Ramaswamy, Managing Committee Member, proposed vote of thanks.

The Endowment lecture coupled with Technical presentation started at 6 PM and ended at 8.15PM followed by Cocktails and Dinner.

IPI Chennai Chapter records its heartfelt thanks to the Chairman, Vice Chairman, Governing Council and HO secretariat staff of IPI for all the assistance given to Chennai Chapter to conduct the Kadakia Plastics Endowment Lecture.

IPF INDIAN PLASTICS FEDERATION

SEMINAR ON 'NEW INDUSTRIAL POLICY & OPPORTUNITY FOR PLASTIC INDUSTRY IN WEST BENGAL AND ENERGY SAVING'

Indian Plastics Federation (IPF), organized a Seminar on 'New Industrial Policy & Opportunity for plastic industry in West Bengal and Energy Saving' on 6th February, 2014 at 6.30 pm at Golden Park Hotel, Kolkata. West Bengal government had announced new Industrial policy and the seminar was organized for the benefit of the IPF members to know and learn about the new policy. Shri C.M. Bachhawat, IAS, Addl. Chief Secretary, Dept. of Commerce & Industries, Govt. of West Bengal graced the seminar with his presence as Chief Guest.

Shri C.M. Bachhawat, IAS in his Key-note address offered his full support and guidance to the IPF members and plastic industry. Shri Bipin Kumar (FCA) spoke in details about the New WB Industrial Policy. Shri Ashok Jajodia, Hon. Secretary, IPF made a presentation on current scenario of Plastic Industry in West Bengal and India as a whole.

FUNCTION OF BHUMI PUJA & COMMENCEMENT OF CONSTRUCTION OF IPF KNOWLEDGE CENTRE

Indian Plastics Federation (IPF), performed the Bhumi Puja & Commencement of Construction of IPF Knowledge Centre at Polypark, Sankrail, Howrah held on 12th February, 2014 at 11.00 A.M. in presence of Shri U.K. Basu, Managing Director of Haldia Petrochemicals Ltd, Shri B.K. Sur (Advisor – Projects), West Bengal Industrial Development Corpn. Ltd and Shri Debashish Bhattacharjee of CIPET, Haldia. IPF Knowledge Centre is a dream project of IPF for training of manpower for plastic industry and testing centre, where school dropouts, members of the minority community, scheduled castes, scheduled tribes and others can be trained and provided jobs in Plastics industry. The construction has started thereafter on the site.

SEMINAR ON 'PLASTICS IN PIPING – THE MODERN CHOICE'

Indian Plastics Federation organized a Seminar on 'Plastics in Piping – The Modern Choice' at Fortune Select Loudon, Kolkata on 2nd May 2014. Eminent speakers on the occasion were Dr. S. N. Yadav, Associate Prof & Head – HLC, CIPET Bhubaneswar who spoke on the various applications of PVC pipes, its advantages and various other features of plastic pipes, Dr. Abhijit G. Patil, Sr. Manager, Polymer Business Development, Reliance Industries Ltd. who gave a presentation on plastic pipes in water management, New developments in plastic pipes, new technologies, other products and life cycle cost concepts and Shri Manish G. Bhaia of Neptune Plastic & Metal Industries, Kolkata who spoke on PE Pipes. The target audiences were officers from Public Health Engineering Directorate, Govt of West Bengal, Kolkata Metropolitan Development Authority and other government departments who use pipes.

GUJARAT STATE PLASTIC MANUFACTURING ASSOCIATION

1. Annual Seminar:-

GSPMA organized 42nd Annual Seminar at Gujarat University Convention Hall Ahmedabad on 12th April 2014. Shri. Subhash Kadakia, President, Plastindia Foundation remained present as the Guest of Honour & addressed the gathering. Shri. Sanjay Shende, Dy. Gen Mgr, Gail (India) Ltd delivered the keynote address on this occasion. The theme of the seminar was "Image Building of

plastic Industries" Directory 2014 was released by the guests to commemorate the event. The programme was followed by dinner & cultural session.

Large number of members, delegates invitees remained present at the seminar.

2. Chinaplas-2014

GSPMA conducted a special delegation to visit Chinaplas exhibition in April 2014. About 160 delegates joined the tour. **Chinaplas 2014** attracted large number of visitors & exhibitors across the globe. The delegation got tremendous success and participants benefited greatly. It was concluded with fruitful notes & positive outcome.

3. Seminar on "Role of Plastic in Automotive Industries"

GSPMA organized a seminar on "Role of plastic in Automotive Industries" on 11th Jan 2014 at Inder Residency, Ahmedabad, Shri Shubhash Kadakia, President, Plastindia Foundation was the Chief Guest at the seminar. Experts from Tata Auto Comp. Tata Motors., Visteon etc. delivered technical presentations. The seminar attracted large number of member and delegates.

4. Engineering Expo 2014

Shri. Ramesh Thummar, President remained present at inaugural function of Engineering Expo Exhibition on 7th March 2014 at Ahmedabad

5. Participation in Exhibition:-

GSPMA will be participating in the following exhibition during this year

Exhibition	Month	City
IPLEX	Aug 2014	Hyderabad
Clean India	Nov 2014	Ahmedabad
Plast Show	Nov 2014	Rajkot
Win India	Dec 2014	New Delhi

6. Environment Awareness Programmes :-

GSPMA will soon start organizing awareness Programme regarding plastic & environment at School level from the coming academic year with support of OPP!

UPCOMING EVENT

The Department of Chemicals and Petrochemicals in association with the Federation of Indian Chambers of Commerce & Industry (FICCI) is organizing the India Chem 2014, the largest composite event in India of the Chemical, Petrochemical and Pharmaceutical Industry, at Bombay Exhibition Centre in Mumbai, India on 9-11 October 2014. India Chem consists of an International Exhibition and a Conference, along with a number of concurrent events such as Chemical Conclave, Buyer-Seller meet, CEO's Forum etc. The last edition in the series, held on

04-06 October 2012 was inaugurated by the President of India.

This year the focus will be on growth with emphasis on sustainability and green chemistry.

We would request all members of the Indian Plastics Industry to take advantage of this Exposition and participate in good numbers to enhance and increase their Manufacture/Business/Trade.

CENTRAL INSTITUTE OF PLASTICS ENGINEERING & TECHNOLOGY

International Conference on "Advancements in Polymeric Materials" APM 2014

"Advancements in Polymeric Materials" is organized every year as APM series, and it is one of the mega-events organized by the two R&D wings of CIPET - LARPM and ARSTPS, every year alternatively at various high learning centers of CIPET i.e. CIPET Bhubaneswar (APM 2010), CIPET Chennai (APM 2011), CIPET Ahmedabad (APM 2012) and CIPET Lucknow (APM 2013), CIPET Bhubaneswar (APM 2014).

The International Conference on "Advancements in Polymeric Materials" (APM 2014) was hosted by Laboratory for Advanced Research in Polymeric Materials (LARPM), with the theme focused on "Exploring the hidden potential of polymeric materials", from February 14 - 16, 2014, in the premises of CIPET Bhubaneswar. This event was witnessed by more than 350 participants.

Shri Indrajit Pal, Secretary (C&PC) Deptt. of Chemicals & Petrochemicals, Govt. of India & President - CIPET Governing Council & Shri Avinash Joshi, Joint Secretary (Petrochemicals) to Department of Chemicals & Petrochemicals, Govt. of India

9th PLASTIVISION INDIA 2013

The 9th Plastivision India 2013 was inaugurated by Shri. Indrajit Pal, Secretary, Department of Chemicals & Petrochemicals (DCPC), Ministry of Chemicals & Fertilizers, Government of India in presence of Shri. Avinash Joshi, Joint Secretary (PC), DCPC along with Saif Mohammed Al Midfa, CEO, Sharjah Expo Centre. Premium trade fair & the show was organized by the All India Plastics Manufacturers' Association (AIPMA), at Mumbai between 12th to 16th December, 2013. CIPET had put up a stall with the area of 72 sq. mtrs (12 x 6 mtrs) at Plastivision India and CIPET displayed its activities and programs.

The CIPET stall was inaugurated by Shri Avinash Joshi, Joint Secretary (DCPC), Deptt of Chemicals & Petrochemicals, Govt of India.

Mr. Saif Mohammad al Midfa, Director General, Expo Centre Sharjah, Sharjah Chambers of Commerce & Industry & Mr. Stephen Hunt, Business Development Manager, British Plastic Federation, UK. He has shown interest in development of close ties with CIPET in the area of Recycling & Green Technology.

Technical Seminar on "Plastics Recycling & Waste Management"

CIPET had organised a One day technical seminar on "Plastics Recycling & Waste Management", at Surat, Gujarat on 27th December 2013, Ajmer, Rajasthan on 20th January 2014 and Kochi, Kerala on 31st January 2014 with the support from Department of Chemicals & Petrochemicals, Ministry of Chemicals & Fertilizers, Govt. of India. The main objective is to create awareness among the NGOs, Officials from State & Central Govt., Industries, associations, Consumers, etc., engaged in the activities of Plastic Waste Management. A Poster & Slogan writing competition for

the School students was also organised in these locations. A large number of people benefited from the seminar.

Participation in Saudi PPPP 2014, Riyadh, Saudi Arabia – February 17 - 20, 2014

The Council completed successful participation in the Saudi PPPP 2014, 11th International Print & Pack and Plastics & Petrochemicals Trade Show, organized by Riyadh Exhibition Company Ltd., held at the International Convention & Exhibition Center, Riyadh, Saudi Arabia, from February 17 - 20, 2014. The Council first time organized India Pavilion at this Exhibition under MAI scheme of the Department of Commerce, Government of India.

Twenty eight (28) companies participated at this exhibition through the Council's umbrella. The companies who participated were M/s Anupam Heaters & Controls Pvt. Ltd, Mumbai, M/s Aristo Exports, Mumbai, M/s Bluplast Industries Ltd, Mumbai, M/s Cilps Poly Engineering, Faridabad, M/s Creative Dies & Moulds Pvt. Ltd, Mumbai, M/s Devu Tools Pvt. Ltd, Mumbai, M/s Dynasty Plastics Pvt. Ltd, Mumbai, M/s Ferromatik Milacron India Pvt. Ltd, Ahmedabad, M/s J K Paras Polycoats Ltd, New Delhi, M/s J.J. Plastalloy Pvt. Ltd, Varanasi, M/s Kabra Extrusiontechnik Ltd, Mumbai, M/s Knack Packaging, Ahmedabad, M/s Lohia Corp Ltd, Kanpur, M/s Mamata Machinery Pvt. Ltd, Ahmedabad, M/s Mamata Extrusions Systems Pvt. Ltd, Ahmedabad, M/s Mantri Plast Pvt. Ltd, Mumbai, M/s Phoenix Enterprises, Jalgaon, M/s Plastona, Mumbai, M/s Prince Industries, Mumbai, M/s Purbanchal Laminates Pvt. Ltd., Gujarat, M/s S. N. Industries (NAROTO-INDIA), Ahmedabad, M/s S. S. Exports, Mumbai, M/s Sudarshan Extrusions Pvt. Ltd, Bangalore, M/s Trimurti Industries-Rope Making Machine Company, Ahmedabad, M/s Universal Trading Company, Mumbai, M/s Vinodrai Engineers Pvt. Ltd, Jalna, M/s Windsor Machines Ltd, Ahmedabad, M/s Yashashri Polyextrusion Ltd, Jaysingpur.

The show covered a wide spectrum of plastic machinery, plastic processing technology, pre & post processing system, plastic packaging technology, injection moulding, blow moulding, wrapping technology, extrusions, chemicals and additives, semifinished goods, engineering plastics and plastic products. Several countries like China, Taiwan, Korea, India, Germany, Egypt, Italy, UAE etc organized their country pavilion.

As per fair authority, this year 520 exhibitors exhibited their products & services and about 21,920 visitors visited the show. As per participant's feedback, the fair provided a good opportunity for establishing new business alliances & renewing the established relationships. Majority of the Exhibitors mentioned that the show and the quality of visitors were excellent. Most of them desired to participate in the next version of Saudi PPPP.

H.E. Mr Hamid Ali Rao, Ambassador of India to the Kingdom of Saudi Arabia inaugurated the India Pavilion on 17th February 2014. Mr. Sibi George, Dy. Chief of the Mission, Mr. Surinder Bhagat, Second Secretary (Political, Information & Commerce) and other officials of Embassy of India, Riyadh were also present at the function. After the inauguration, all the dignitaries visited the India Pavilion and interacted with all the Indian exhibitors.

H. E. Mr. Hamid Ali Rao, Ambassador of India to the Kingdom of Saudi Arabia took a brief meeting with the selected delegation members/Exhibitors of the Council on 18th of February 2014. Mr. Sibi George, Dy. Chief of the Mission, Mr. Surinder Bhagat, Second Secretary (Political, Information & Commerce), Embassy of India, Riyadh were also present at the meeting. Various issues, concerns and prospects of India's export to Saudi Arabia were discussed at the meeting.

Coinciding with the Saudi PPPP 2014, Saudi India Business Network (SIBN), which is an informal network established by the Embassy of India, Riyadh, organized a B2B meeting between the business communities of our two countries on 18th February 2014 at the Embassy of India Premises. Mr. Sibi George, Dy. Chief of the Mission welcomed the participants. A presentation on the Indian Plastic Industry & Council's services was also made by Mr. Nilotpal Biswas, Regional Director, PLEXCONCIL. Delegation Members/Exhibitors interacted with Saudi Business people who had attended the B2B meeting.

Plastindia 2015 launched in Bangalore on 20th February 2014

India's largest and globally the 3rd largest Exhibition and Conference for the Plastics Industry, PIF 2015 was launched in Bangalore on February 20th 2014.

The ninth edition of Plastindia 2015 will be held from February 5-10, 2015 at Pragati Maidan, New Delhi. This international exhibition is supported by the Ministry of Chemicals and Fertilizers Department of Chemicals and Petrochemicals, Govt. of India, and will be one of the three largest shows in the plastics industry globally. With strong international participation Plastindia 2015, spread over 125,000 sq. meters of area, will have over 2000 exhibitors from over 40 countries and over 150,000 business visitors.

Mr M. Maheshwar Rao, IAS, Commissioner for Industrial Development & Director of Industries & Commerce- Department of Industries & Commerce - Government of Karnataka was the chief guest.

In his address he remarked " Backed by a huge workforce of economical yet skilled manpower; a high emphasis on quality as well as value for money; and a favorable regulatory environment, India's plastic processing sector is surging. The industry has surplus processing capability to cater to more business and is constantly upgrading itself on technology and automisation front to keep pace with the developed nations. India - the globe's most lucrative business destination is growing bigger by the day. Plastics - as the key material for man's progress today - will be a key beneficiary of this tremendous growth surge. PLASTINDIA 2015 will be the gateway to this profusion of unlimited possibilities as India is poised to become the next global hub for plastics. All in all, PLASTINDIA 2015 promises opportunities for growth and success to anyone associated with or willing to associate with the wonderful world of plastics".

Lighting of the Lamp

Mr Rao further added that, "In line with the policies of Government of India, Government of Karnataka is establishing two Plastic parks - one in Bangalore and one in Dharwad. I extend herewith my best wishes to all participants be it Exhibitors, Visitors & the organizers for the grand success of the mega event - Plastindia 2015".

Elaborating this view, Mr J.R. Shah, Chairman National Executive Council, Plastindia PI 2015, said, "With rising demand for innovative solution in food packaging in India, the multibillion plastic packaging industry is scaling new heights. However, in order to become more competitive in global markets, Indian food packaging industry heavily relies on plastic applications in food industry. With the main objective of Plastindia Foundation being the promotion, development and growth of the Indian Plastics Industry in India, we have initiated steps to be the driving force for the MSMEs by facilitation, counseling and advising them on the processes and steps to avail of the Technology Upgradation Fund offered by the Government of India". He continued by stating, "This will be an eye-opener to many and emphasize India's position as the world's sourcing hub for plastics finished products".

Focusing on the increased use of plastics in the healthy and safe packaging of food, Mr. Prabuddha Dasgupta, one of the most respectable packaging professionals said that, "In the current business environment, the key areas of growth are agriculture, retail, food processing, medicines and plastic packaging plays a vital role in ensuring quality products reach the consumer. Plastics are perhaps the most versatile group of materials used in packaging. However, in international markets or at duty free shops overseas and in India as well, Indian packaged food is very difficult to find on shelves; the primary reason being, lack of high quality of packaging solutions. With the increased use of technology which has provided high quality and safe plastic for various applications in the Indian food industry, the industry will become more competitive and will gain cost effectiveness. PLASTINDIA 2015 will make this happen and be the gateway to skyrocket such opportunities".

Dignitaries on the dais

Plastindia 2015 launched in Delhi on 21st February 2014

India's largest and globally the 3rd largest Exhibition and Conference for the Plastics Industry, PIF 2015 was launched in Delhi on February 21st 2014.

Mr. Indarjit Pal, I.A.S, Secretary, Department of Chemicals & Petrochemicals under Ministry of Chemicals and Fertilizers was the chief guest.

While presenting the significance of growing use of plastics in automotive industry, Mr. Ajay Jain, Chairman and Managing Director, Precision Pipes and Profiles Co Ltd, said that, "Plastics is no more an option. It is, in fact, the material of choice for the vibrant automotive sector. While plastics is 3 times lighter than aluminium and 7 times lighter than sheet metal, it meets regulatory requirements, functional requirements, environmental requirements, all in one go! Bumper, dashboard, fenders and body trims are already well established with plastics. Intake manifolds, cylinder cover heads, air ducts, oil panes and reinforced

Stating his viewpoint, Mr. J.R. Shah, Chairman National Executive Council, Plastindia 2015, said, "Meeting the agenda of sustainability in automobiles is best possible by use of plastics. Light-weighting continues to be the buzz-word for this industry. Plastics is the answer! It helps in improving the sustainability by reducing overall weight. A well proven fact is that a 10% reduction in weight of the total vehicle, improves the fuel economy by 5 to 7%. In addition, every kg of vehicle weight reduction has the potential to reduce CO₂ emissions by 20 kg. Reducing weight of cars is the key to using less energy and minimizing wear and emission".

"With the main objective of Plastindia Foundation being the promotion, development and growth of the Indian Plastics Industry in India, we have initiated steps to be the driving force for the MSMEs by facilitation, counseling and advising them on the processes and steps to avail of the Technology Upgradation Fund offered by the Government of India. This will be an eye-opener to many and emphasize India's position as the world's sourcing hub for plastics finished products", added Mr. Shah.

Launch of Plastindia 2015 at Delhi

Dignitaries on the dais

tires are areas where plastic is also replacing the traditional sheet metal and aluminium parts. Replacement of metal with plastics to make fuel tank and battery boxes reduces the weight of the components by 40% and 70%, respectively making the vehicle more fuel-efficient. The fuel economy resulting from replacement of metals with plastics has therefore, been a key consideration for the switchover to plastic auto components."

Joining hands with the Plastindia Foundation, the apex body of major associations, organizations and institutions, including Government & Semi Government organizations associated with plastics are major internationally acclaimed partners such as Messe Dusseldorf GmbH, Adsale Exhibition Services Ltd, Pilatus International Co Ltd and supported by EUROMAP – The European Plastics and Rubber Manufacturers Association.

Foundation Activities

Plastindia 2015 launched in Kolkata on March 26, 2014

India's largest and globally the 3rd largest exhibition and conference for the Plastics Industry, PIF 2015 was launched at Hotel Great Eastern Lalit, in Kolkata on March 26, 2014.

Janab Firhad Hakim, Honorable Minister - Municipal Affairs and Urban Development, Government of West Bengal was the chief guest for the occasion which saw an outstanding turnout of over 500 of India's plastics professionals, well in excess of the audience anticipated.

Mr. Subhash Kadakia President PIF highlighted opportunity at eastern belt is now paving way for huge market especially for the processing industry in terms of Plastics Industry, with presence of Haldia Petrochemicals and upcoming Government supported cracker Gas project in Assam coupled with investment friendly West Bengal Government

The six-day mega event, Plastindia 2015 will bring under one roof major global and Indian Plastics Industry innovators. The exhibition and conference will reveal the cutting edge technological developments, equipment and products. Plastindia 2015 takes further the innovations from the earlier version, in

that it will concurrently host Proplast 2015 and an International Conference to draw the attention of the entire business fraternity. Plastindia 2015 will be the 9th edition in the National Capital at the same venue with a lot of innovations, improvements and facilities. Eminent academicians, consultants, professionals, technocrats, research scientists and industry experts will participate and share their views during various seminars.

Key attractions for this exhibition:

- * 26th ASIA Plastics Forum
- * Proplast 2015 - finished goods section, This will showcase the forays made by the Indian processed plastics sector.
- * PLASTICON Awards to encourage and recognize innovation and growth in all facets of Indian Plastic Industry and to honor significant contribution made by Indian business enterprises, Institutions, NGOs and individuals who have excelled in their endeavor.
- * Wiintech - Worldwide Intercluster Initiative for New Materials and processes focused on Clean Technology - The European Gateway to develop business and technology opportunities.

Mr. Subhash Kadakia, President Plastindia Foundation

Plastindia 2015 launched in Chennai on 6th May 2014

India's largest and globally the 3rd largest Exhibition and Conference for the Plastics Industry, PIF 2015 was launched in Chennai on 6th May 2014

Thiru K. Dhanavel I.A.S., Director (i/c) & Secretary to Government Chairman to EDI Governing Council Micro, Small and Medium Enterprises Department, Secretariat was the chief guest.

The Southern region of India is very important for Indian Plastic Industry. Two PVC and one Polystyrene plants are operating in South India. This region now leads in Thermosets and Composites. It is also a hub of PVC pipes. Further, South India also happens to be a hub of automobile industries and there is a high potential for growth of plastics in auto parts segment. Also, Kamataka is emerging as the centre of Raffia, while pharmaceutical industries are flourishing in Andhra Pradesh, with a huge potential growth for packaging sector.

Backed by a huge workforce of economical yet skilled manpower; a high emphasis on quality as well as value for money; and a favourable regulatory environment, India's plastic processing sector is surging. The industry has surplus processing capability to cater to more business and is constantly upgrading itself on technology and atomisation front to keep pace with the developed nations. India - the globe's most lucrative business destination is growing bigger by the day. SEMINAR ON INVESTMENT OPPORTUNITIES ON 25TH APRIL 2014

The Organizers of Chinaplas from 23rd to 26th April 2014 can be sincerely complimented for their imaginative and thought provoking subjects for seminars, lecture meetings and also for creating a forum for investment opportunities in emerging markets of South East Asia including India. They provided a platform to countries like India, Indonesia, Thailand etc. to show case potential of business opportunities in their countries. India was fortunate to have been included in this seminar on 26th April 2014.

Under the guidance of our parent Ministry of Chemical & Fertilizers, Department of Chemicals & Petrochemicals (DCPC) an introduction was given by Mr. Indrajit Pal, IAS, Secretary department highlighting Government of India's role in creating Four Petroleum, Chemicals and Petrochemicals Investment Regions (PCPIRs) in coastal states of Andhra Pradesh, Gujarat, Odisha & Tamilnadu. These will be totally integrated areas giving boost to further growth to this industry. Mr. Pal also gave an overview of support being extended by his ministry to create a very congenial atmosphere of growth to this sunrise industry.

He encouraged Mr. M. N. Patel Chairman, National Advisory Board (NAB) of Plastindia Foundation 2015 to share about investment opportunities in India by polymer industry.

Mr. M.N. Patel by virtue of not only being the biggest manufacturer of Plastics processing machines in India but also as Chairman of National Advisory Board (NAB) of Plastindia Foundation drew attention of very large number of delegates about Macro Economic Scenario. Ease of investment and growth opportunities being provided as most promising destination for investment in Plastic industry in India.

He emphasized on the following about India:-

1. Robust economy with strong fundamentals being 10th largest in the world and 4th largest by PPP
2. GDP to cross 5 trillion by 2020.
3. High growth of FDI
4. Population of over 1.2 billion with median age of 24 years.
5. 2nd largest English speaking population in the world.
6. Large work force – skilled & educated
7. Growing consumer market
8. 40% of global middle class consumption by 2050
9. Highly supportive Federal & State Government and Financial Institutions.
10. Over 30,000 plastic processing units with over 30 MMT capacity spread across length & breadth of India.
11. Total consumption likely to grow from present 11.8 MMT to over 20 MMT by 2020 with per capita consumption going up from 9.5kgs to over 20kgs by 2020.

Mr. Patel informed the highly knowledgeable gathering about Government of India's Policy of Technology upgradation Fund (TUF) and also PCPIRs and state government's plastics processing parks etc.

This presentation evoked a very positive response from the audience.

INDONESIA VISIT OF MR SUBHASH KADAKIA, PRESIDENT PLASTINDIA FOUNDATION

Subhash Kadakia, President Plastindia Foundation, visited the 15th Asean Federation of Plastic Industries Council (2012-2014), on 22nd May 2014, held at Grand Hyatt Hotel, Nusa Dua Bali, Indonesia.

The AFPI Association was represented by Singapore, Malaysia, Thailand, Philippines, Indonesia, Vietnam and Myanmar.

He represented India, during the AFPI meet and promoted the Plastindia 2015 Exhibition. Plastindia 2015 AV Film was also screened at the gathering.

He also met Mr Callum Chen, Secretary Asian Plastic Forum (APF), Malaysia and invited him and all APF members to hold the 26th APF during PI 2015 Exhibition at New Delhi.

INDUSTRY NETWORKING DINNER ON 25TH APRIL 2014 AT CHINAPLAS

Plastindia Foundation had a high powered delegation comprising of Subhash Kadakia, President Plastindia Foundation, Chairman of National Executive Council, J.R. Shah and also its Chairman of National Advisory Board (NAB), M.N. Patel, their young & energetic vice president Rajiv Chitalia and their treasurer Rajeev Rawal in Chinaplas 2nd biggest exhibition on plastics in Shanghai from 23rd to 26th April 2014. All of them have had several rounds of meetings with CEOs and senior executives of Plastindia's Partners like Messe Dusseldorf GmbH (Germany), Adsale Exhibition Services Ltd. (Hongkong) and Pilatus International Co. Ltd (Taiwan). They also had one to one meetings with British Plastics Foundation, Taiwan Association of Machinery Industry and many more.

Plastindia Foundation was also privileged to host industry networking dinner on 25th April 14 and was also given a place of pride to participate in a seminar organized by Chinaplas on 26th April 14 to share its view on investment opportunities in India.

Plastindia hosted a formal dinner inviting all overseas partners Messe Dusseldorf GmbH (Germany), Adsale Exhibition Services Ltd. (Hongkong) and Pilatus International Co. Ltd (Taiwan), on 25th April 2014 at Radisson Blue and large number of delegates from different parts of globe.

In spite of inclement weather there was a very smart turnout of invited guests. Indrajit Pal, IAS, Secretary Department of Chemicals & Petrochemicals (DCPC) from Ministry of Chemical & Fertilizers Government of India welcomed the large number of delegates not only from our three Partners but also importers, leaders of Polymer industry from NE Asia, SE Asia, ME Asia and also from Israel, USA and Europe. Mr. Pal informed gathering about Government of India's Commitment not only to support

Plastindia, an apex organization of Plastics industry but also for furtherance of petrochemicals industry in general and plastics industry in particular.

He briefed delegates about Plastindia being an organization BY THE INDUSTRY; FOR THE INDUSTRY & OF THE INDUSTRY. He mentioned that it is probably unique that eminent leaders and senior executives of plastic industry of India get together in a totally selfless and committed manner to make such mega event

happen every Third year. It is now third largest exhibition in plastic Industry of the world after K in Germany and Chinaplas in China.

Mr. Pal highlighted that Plastindia Foundation does not merely organize exhibition & seminar every 3rd year but also is in the process of establishing a world class Plastindia

International University. It also helps promotion of Plastic in agriculture, addresses issues related to environment and recycling etc.

Mr. Pal shared his thoughts about growth potential of Plastics industry in India where present per capita consumption is poised to grow from 9.5kgs to over 20kgs by 2020. Consumption of raw material will increase from present 12 million MT to over 20million MT also by 2020. India will become 3rd largest consumer of plastics in the world.

He drew attention of changing demography of India where the median age will be 24 years consisting of highly educated English speaking work force at affordable compensation.

Plastindia foundation's booth in Chinaplas 2014 became a focal point of visitors not only of past but also of prospective exhibitors. It was heartening to witness intense interest shown by leading raw material suppliers, machinery manufacturers from China as also from Europe.

Mr. Indrajit Pal, IAS, Secretary DCPC welcomed large number of delegates

Chinaplas Post Review

CHINAPLAS THRIVES IN HEALTHY PLASTICS AND RUBBER MARKET IN CHINA

Four-day show attracts more than 130,000 visitors

The Asia's biggest and world's second largest plastics and rubber trade fair - CHINAPLAS 2014, held from 23 to 26 April at Shanghai New International Expo Center, PR China has come to a success close, welcoming a total of 130,370 visitors and 3,067 exhibitors, both setting the new records for CHINAPLAS. The total visitors also recorded a significant growth, up 14.3% as compared with the previous year.

With the increasing global appeal of CHINAPLAS to overseas buyers, the number of overseas visitors has recorded the biggest jump by 19.7% to 36,841, representing 28.3% of total visitors, while domestic visitors maintains a strong figure of 93,529, with a 12.2% year-on-year increase.

The strong attendance of overseas visitors was contributed from 143 countries and regions, with Korea, India, Japan, Taiwan, Indonesia, Iran, Thailand, Malaysia, Russia and Hong Kong on the top-ten. 63.2% of overseas visitors were from Asia including Hong Kong, Macau and Taiwan, followed by Middle East (11.5%), Europe (10.7%), America (7.5%), Africa (5.8%), and Oceania (1.3%).

For local visitors, as expected, the majority were from Eastern China including Shanghai (70%) due to the proximity of location, followed

Chinaplas® 2014 国际橡塑展

by Northern and Northeastern China (12.3%), Southern China (9.1%) and Central, Southwestern and Northwestern China (8.7%).

Well-received by visitors

Visitors were impressed by the quality of exhibitors, with 91.9% of visitors rated "good" or "excellent" on quality of exhibitors, and 82.7% are pleased with the services and venue provided, according to the visitors survey. Ashok Jajodia, Managing Director, Cosmo Plastics Pvt. Ltd from India praised "I find the show makes progress in terms of size, exhibitors and arrangement every year. CHINAPLAS is no longer an exhibition for China market, but has become an important international event in plastics and rubber industries. Overseas exhibitors target not only Chinese but for major international market like India, Turkey, Middle East, Australia, etc."

The 29th edition of CHINAPLAS will be held on 20-23 May, 2015 at China Import and Export Fair Complex, Guangzhou, PR China.

Many end-user sectors which plastics and rubber have heavily infiltrated are on the bloom in China. Last year (2013) alone, China has produced over 20 million cars.

China is currently the biggest producer of the machinery for plastics

A host of concurrent events such as conferences and seminars were organized at CHINAPLAS to facilitate knowledge exchange and cross-industry dialogues.

CHINAPLAS has become an important international event for plastics and rubber industries.
